RE: Expedited Final Program Review Determination Letter
OPE ID: 03232300
PRCN: 201240228032

Dear Mr. McAlmont:

From August 6, 2012 through August 10, 2012, Marie Bangura and Maritza Phillips conducted a review of Lincoln Technical Institute's (Lincoln) administration of the programs authorized pursuant to Title IV of the Higher Education Act of 1965, as amended, 20 U.S.C. §§ 1070 et seq. (Title IV, HEA programs). The purpose of this Final Program Review Determination Letter is to close the program review.

The focus of the review was Lincoln's administration of Title IV programs. The review consisted of an examination of Lincoln's financial aid, admission/bursar, and student account records.

A sample of 30 files was identified for review from the 2010-2011 and 2011-2012 award years. The files were selected randomly from a statistical sample of the total population receiving Title IV, HEA program funds for each award year.

Appendix A lists the names and partial social security numbers of the students whose files were examined during the program review.

Protection of Personally Identifiable Information (PII):

PII is any information about an individual which can be used to distinguish or trace an individual's identity (some examples are name, social security number, date and place of birth). The loss of PII can result in substantial harm, embarrassment, and inconvenience to individuals and may lead to identity theft or other fraudulent use of the information. Appendix A was encrypted and sent separately to the institution via e-mail.

Although the review was thorough, it cannot be assumed to be all-inclusive. The absence of statements in the report concerning Lincoln's specific practices and procedures must not be construed as acceptance, approval, or endorsement of those specific practices and procedures. Furthermore, it does not relieve Lincoln of its obligation to comply with all of the statutory or regulatory provisions governing the Title IV, HEA programs.

During the review, no significant findings were identified.
